

SDL Training Services based in Horncastle but operates throughout Lincolnshire & beyond offers Intermediate, Advanced and Higher Apprenticeships to all ages & groups – 16-18, 19-24 & 25+, so no restrictions to anyone whether a new or existing employee. We also provide Workplace Skills* (qualifications at Level 2 & 3) where we deliver in the workplace & online so no disruption to the business & perhaps more importantly – no costs! *(subject to eligibility criteria being met)

We offer a wide range of specific industry qualifications that lead to & recognise employability, as this allows us to meet individual/employer/local needs - we avoid generic qualifications that often do not allow a job-role/specialism to be identified & demonstrated - thus making the initial advice redundant & unprofessional. We will source or signpost if we do not have something in our portfolio & will never persuade you to take a generic qualification to make a sale or achieve a target! Clients are respected and their investment is our accountability.

Our Advisers will help you to identify courses suitable for your business and employees or for yourself – visit www.sdltraining.co.uk/3.html to see our qualifications.
